6 customizable alert (2 low and high pressure, high temp., cross axle & leak alert) provide the market's most advanced warning system.

3 different viewing modes allow customers to choose their preferred screen layout.

Intuitive operation guides users through simple installation and allows effortless use.

Data logging | 1936 & Rs. 232 capabilities unlock advanced monitoring options and information.

Advanced technology allows users to store 5 pre-programmed units allowing easy transfer between vehicles or small scale drop & hook.

## QUICK SPECS

12 OR 24 v POWER

3.8 OUNCER

4.5w x 3H X 1D

80 TIRES ON SINGLE UNIT

## TPMS ULTRA

System Comprises

- In Car Unit
- Sensor
- Ultra App\*
- Large Bore / Standard Bore T-valve
- Sensor Protective Casing

\*Compatible with Android 4.3 and above as well as iOS7.1 or later with at least Bluetooth 4.0

## IN CAR UNIT

- Readings display unit for the prime mover
- Monitors up to 22 sensors
- Facilitates sensor pairing
- Signal booster

## ULTRA SENSOR

Tire pressure / temperature sensing

## ULTRA APP

For Smart Devices on iOS 7.1 and Android 4.3 or later
